1. The following is an examiner's statement of reasons for allowance:

None of the prior art discloses or suggests the claimed flexible connector formed of a single layer flexible film with printed circuit lines and a communication apparatus comprising a first member and a second member mechanically connected by a two-axis hinge and further comprising said flexible connector as being recited in the independent claims of the present invention.

Claims 1-5 recite inter alia a flexible connector formed of a single layer flexible film with printed circuit lines, said flexible connector comprising a first connection means, and a second connection means, wherein said flexible connector further comprises a first part extending from the first connection means, wherein said first part is adapted to form a coiled part encircling a first axis; a second part extending from the second connection means, wherein said second part is adapted to form a coiled part encircling a second axis; and a third part interconnecting said first and second parts.

Claims 10-14 recite inter alia a communication apparatus comprising a first member and a second member mechanically connected by a two-axis hinge and further comprising a flexible connector formed of a single layer flexible film with printed circuit lines; wherein said flexible connector further comprises a first part extending from the first connection mean, wherein said first part forms a coiled part encircling a first axis of said two-axes hinge; a second part extending from the second connection means, wherein said second part form a coiled part encircling a second axis of said two-axes hinge; and a third part interconnecting said first and second parts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
